STOP THE ATTACK ON MEDICARE AND MEDICAID!

To the Indiana Congressional Delegation, Representatives and Senators:

We the undersigned residents of Indiana petition the Congress of the United States to oppose Representative Ryan and the House Budget Committee who have proposed ending Medicare as we know it and replacing it with a voucher program, a huge taxpayer subsidy to the private insurance industry. The proposal includes ending any Federal role in overseeing the Medicaid program, freeing states to balance their budgets by cutting medical care to the disabled and poor. Healthcare costs are a serious problem, but **cutting Medicare and Medicaid won't help**.

Instead, we need to take the corporate greed and waste out of our healthcare system, and make healthcare a human right by extending Medicare to everyone, Improved and Expanded Medicare for All.
